Comments:

- One of the top picks from the Peak Dot Ranch Bull Sale, Peak Dot Iron Mountain 654X was admired for his depth of body, natural muscle and thickness. He also posted some of the most impressive performance numbers with a 847 lbs WW, a 1,374 lbs YW and an impressive sale day weight of 1712 lbs. On the top side you have the popular S A V Iron Mountain 8066 bull, which provides proven performance and muscle and on his bottom side he is out of a phenomenal Predominant first calf heifer, who provides tonnes of maternal strength and power.
